MHM AUTOMATION YOUTUBE CHANNEL

Cobots work safely alongside people to automate repetitive tasks.

MHM Collaborative Robots (Cobots) are a cost effective and easily implemented solution to automate repetitive and ergonomically challenging tasks.

Designed to effectively replace a person in a production environment, Cobots safely work alongside and collaborate with people.

Custom end effectors can be provided to allow Cobots to perform a wide range of tasks.

Cobots are a proven technology with an attractive return on investment (ROI). They are an ideal solution to address the labour shortages being experienced in many industries.

MHM Cobots have a 5kg payload and feature industry-leading reach and speed.

APPLICATIONS

- > Repetitive tasks
- > Ergonomically challenging tasks

BENEFITS

- > Fast, accurate and reliable performance
- > Cost effective, with attractive ROI
- > Quick and easy to implement
- > Reduce reliance on labour
- > Can perform ergonomically challenging tasks without risk of injury

FEATURES

- > Payload 5kg (11lb)
- > Reach 950mm (3'1")
- > Maximum speed 2.2m/s (7.2ft/s)
- > Small footprint
- > Lightweight: 27kg (60lb)
- > VR and AR integration available
